- 25X1 5. [] GLC) Received a call from Mae Sikes, Congressional Relations of Department of State. She said they had received an inquiry from Paula Yates, in the office of Representative J. Herbert Burke, asking about Air Asia Limited. Miss Yates specifically asked what kind of airline it was and whether it flew over Vietnam. After talking with Mr. Warfield and Mr. Houston, I suggested to Miss Sikes that she respond to this inquiry indicating that Air Asia was not an airline but was a corporation chartered under Chinese National law which provided aircraft maintenance services and did some maintenance work for the Air Force on a contract basis. It's main base is on Formosa and it has a business office in Washington. Miss Sikes said she would be happy to answer this inquiry in this fashion.
